

Mark as done

This discussion will last for 3 weeks covering units 8, 9 and 10. Ensure you include appropriate citations and references in all your posts (this is not included in the word count for each week's post/submission).

Discussion Topic

Read/listen to the article by Hutson (2021) in Nature on Robo-writers. This week, post your thoughts on the risks and benefits of the use AI writers at different levels, from administrative work to creative writing.

You should demonstrate that you understand the topic covered and ensure you use references to academic literature (journals, books, reports, etc.).

Learning Outcomes

- Apply and critically appraise machine learning techniques to real-world problems, particularly where technical risk and uncertainty is involved.

Assignment Guidance

- Your initial posting should respond to the question and be at least 200 words long. This should be labelled as '**Initial Post**'
- You will then respond to **at least 2 of your peers' posts** in unit 9 (each labelled as '**Peer Response**'). To guide your responses, look at the guidelines for the peer review process on the [Department's homepage](#). Focus on the possible measures that could have been put in place in order to prevent the incidents highlighted by your peers. Please try to limit your response posts to **200-300 words maximum**, so that others may be encouraged to reflect on, and respond to your ideas.
- In Unit 10, you should provide a summary post based on your initial post, the feedback from your peers and the content of the three units. Please label this as '**Summary Post**'. It should be **300 words**.
- Referencing: When you have referred to other authors thoughts, ideas and opinions in your posts, you must reference the author as you would in an academic assignment using the UoEO Harvard reference style.
- You will not be assessed on your contribution to this forum throughout the module, but the tutor will post group feedback via a module announcement.
- This activity forms a component of your e-portfolio which you will submit in unit 12. All e-portfolio activities are intended to demonstrate your ability and strengths through evidence and reflection.

Please also note that all forums, except Module Announcements, are automatically set to **unsubscribed**. In order to receive notifications about your post, or anyone else's posts you have interest in or have commented on, the subscribe button must be manually turned on for **each separate discussion**. Subscribe by scrolling to the bottom of this forum and selecting **Subscribe to this forum**.
